*Energetic Essentials Kick-Start
THE SIX LIGHT CODES:*

Becoming familiar with The Six Light Codes is a beautiful way to raise your vibe and keep your energy fields clear. Although they may sound wordy & awkward initially, reciting them daily will feel more natural once you recognize the repetitive nature of the various phrases.

This introduction involves a playful 40-day challenge & a premise of reciting them DAILY. (If you miss a day, start all over.)

Obviously, that's optional. But, it's a fun way for empaths and sensitive people to remember to incorporate them into your DAILY Routines.

In addition to the video lessons, this convenient PDF should help you with the process.
